MEMORANDUM FOR:

Attention:

Subject: Supplements to JANIS

1. This will confirm tentative dates and topics to be covered in JANIS supplements agreed upon by

2. It should be borne in mind that supplements should not be issued unless they result in a substantial contribution or correct errors in previous studies.

3. For Naval Facilities chapters an annotated plan showing corrected naval facilities will be prepared for submission to JISPB on 1 April 1945 for JANIS 85 and on 15 April 1945 for JANIS 84. These two plans will answer the requirements for a second phase study as well as forming a basis for a later supplement to these respective JANIS Studies.

4. The Ports chapters will involve the following:

a. JANIS 85: (1) A table of anchorages with description and classification and accompanying map to be prepared for the east coast of Honshu, with a paragraph or two of greater detail on the Tokyo area, (including the east coast of Honshu up to about 36° 50'N), the Sendai area, and the northern tip of Honshu (from Hachinohe northward). (2) A table of port capacities with the possibility of including a new location map classifying the ports by size with definitions of the categories. (3) Some additional data and errata on individual ports including a new map in color of Yokohama and Kawasaki, with reference number overlay for JANIS 85, and new aerial photos and mosaics, some with overlays. (4) Description and listing of some new ports and landings including Yokosuka and Ominato. If numerous new landings are discovered, their treatment might be confined to the east coast of Honshu. Enclosed with this memorandum is a more detailed statement of the nature of a supplement to JANIS 85. Deadline 25 April 1945.

b. JANIS 84, similar treatment to JANIS 85 but not including any anchorage information. Deadline 15 May 1945.
